

## **Third Party Billing, V 2.5**

### **EXECUTIVE SUMMARY**

The Third Party Billing System (ABM) automates the creation of a claim using existing RPMS data. In 3PB you can edit files and claims; print a UB-92, HCFA 1500, or ADA Dental form; or create an electronic UB-92 or HCFA 1500 file. The system generates bills for private insurance, Medicare, Medicaid, and non-beneficiary (self-paying) patients.

ABM version 2.5 is primarily a maintenance release consisting of version 2.4 patched through patch 10. Additionally, this version supports FileMan version 21 and 22. Other enhancements include auto-approve dental claims, additional modes of export and files that support claim submission to Envoy/ Web MD, and a new file that will prevent local modifications from being overwritten by future ABM versions.
